WHAT'S IN THE BOX?

www.box-city.co.uk

From Summer 2017, Box City will be the place to be for live music, outdoor cinema, street food and festivals. So contact us now to find out how you can be part of it.

Box City is going to be one of Britain's largest container villages ever and the festival heart of Cardiff! Situated in the heart of the Bay, Box City will combine shops, restaurants, offices and pop-up markets in shipping containers, purposely fitted out for your exact requirements.

Box City is the perfect place to set up your business or simply try a new venue. At the lower quay level we hope to attract street food vendors, pop-up markets, bars and more. Above here will be office space, business hubs and co-working facilities. Whats more...there will also be accommodation in the form of 'airboxes' - 56 apartments each with their own balcony overlooking Cardiff bay and the Severn Estuary.

Built with organic materials and up-cycled shipping containers, the eco-friendly Box City offers a plug-and-play retail and commercial solution in a modular cargotecture village. Box City is on a fast track for Summer 2017 and we are offering container rental on your own terms.

Whether you simply want a container to offer pop-up street food during one of our many planned festivals, or you are looking for business premises on a more permanent basis, speak to us.
